**Receiving Stream Flow Statistics used for
Permit:** See attached fact sheet; flows are
unchanged since this evaluation

Effluent Characteristics and Max Daily Flow:

Please see the attached permit, fact, and application
for permit reissuance. DEQ anticipates little to no
change in the permit limits at this reissuance. This
facility is expected to be designed for 12.6 MGD by
12/31/10.

**Species Search Results (or attach database
report and map):** DGIF and DCR requested an
opportunity to review this discharge in
conjunction with the 2011 permit reissuance.
